Each proposal will be evaluated according to the following evaluation criteria:

	Accepted	Refused	Developed	Comment
1- Research Cover	√			
2- Research Title	√			It is preferred to mention also the period of study to make the title more specific and informative.
3- Introduction			√	Kindly note that the introduction is an introduction to a specific problem in a specific county and industry not only a general introduction.
4- Study Problem				Missing the problem "You have to mention the problem in a clear and informative form"
5- Importance of The Study			√	Ensure that the importance of the study is related to the research problem.
6- Objectives of The Study			√	Since you intend to measure the impact of the digital transformation you need to mention that in the objectives section.
7- Study Questions			√	The questions should be relevant to the objectives in an exact form.
8- Theoretical Framework				Missing the framework
9- Theoretical Premises of Study			√	You have to classify the theoretical premises of the study in terms of theoretical background and previous studies to determine the research gap of your research which confirms the usefulness of your research from professional and academic perspectives.
10- Research Methodology			√	The research methodology is missing you need to illustrate the methodology of your research in terms of research design, data collection, data analysis, variables and measurements, sample size, population, statistical approaches, and period of study because the methodology is considered the turning point between the theoretical part and the application of the research.
11- Study Tools			√	You should illustrate the study tools by showing the reasonable justification behind the tools you intend to apply to measure the impact of the digital

				transformation on the dependent variable of the study.
12- Fields of Study	✓			
13- List of References and Preliminary Resources	✓			
14- General Comments (Optional)
