Principle of management

Instructions:

يجب حل الواجب و تعبئته في هذا النموذج وتحويله الي PDF ورفعته مره اخري للتقيم.
الحل باللغة العربية او الانجليزية.

Instructor's Name: **DR. MAGDY ALHAJ**

(Discuss the relationship between Functions of Management and function of project)

(ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

At the beginning let's mention the core elements of each function:

Functions of Management:

- Planning
- Organizing
- Leading
- Controlling

Functions of project:

- Product
- Marketing
- HR
- Finance

In my opinion, the functions of management are crucial for every organization, when a project manager is responsible for functions of a project, he needs to acquire the elements that will enhance his managerial roles which are the functions of management. A project manager needs to set appropriate planning goals and make sure they are accomplished. In addition, organizing, leading and finally controlling. All these elements must be present in any organization in order for the function of project which are the departments specialized in different roles to accomplish the desired and targeted goal without any conflicts.

In summary, we can say that functions of project cannot accomplish targeted goals efficiently without the element of functions of management which will plan, organize, lead and control each department.
