

Overall, the problem statement and research objectives are well-written. For the problem statement, it is not necessary to explicitly label the main points (e.g., "Problem Domain "Problem Description"). Instead, ensure that the content is self-explanatory and flows naturally. Additionally, highlight more on the problems of existing solutions

For research objectives, ensuring alignment with the challenges highlighted in the problem statement . Additionally, ensure that each object is measurable

remove the in-text citation in the research objectives

Assignment 2 Rubric

Weighting: 30%

27/30

Criteria	Marks	Description
Problem Statement (14 marks):		
Clarity	4	The problem statement is clear and concise, and the reader can easily understand the research problem. It should be free from ambiguity. 4
Relevance	5	The problem statement addresses a significant research issue or gap in the field, and its relevance to the broader context is evident. 4
Specificity	5	The problem statement is specific and well-defined, focusing on a single, clear research question or issue. 5
Research Objectives (13 marks)		
Alignment	4	The research objectives are directly related to the problem statement and are designed to address the identified research problem. 3
Clarity	4	Each research objective is clearly stated and is easily understood. The objectives should be free from ambiguity. 4
Measurability	5	The research objectives are framed in a way that allows for measurement and evaluation, and it is evident how they will contribute to achieving the research goal. 4
Other criteria (3%)		
Language, Grammar, and typo	3	The text follows proper grammatical rules, including subject-verb agreement, tenses, and sentence structure. Furthermore, text is free from spelling errors, typos, and other typographical mistakes. 3
