Peer-Review Report

The peer-review report of the research that sent to the Academic Journal of Research and Scientific Publishing.

Titled: "The impact of the work environment on administrative creativity in GEO GLOBAL and NIBCO company"

By: Osama Yaser Suwaidan¹, Dr. Asma Abu Anza², Dr. Ahmed Hussein Ali³

Masters of Project Management, College of Management, Midocean University, Saudi Arabia ¹

Faculty member, College of Management, Midocean University, Saudi Arabia -

Supervisor ^{2,3}

Received: 27 October 2024, Accepted: 2 November 2024, Published: 5 November 2024.

Element	Peer-review criteria	Percent %
Title	- Formulate the title in a good scientific manner	92%
	- The title gives a brief description of the research topic	93%
Abstract	- Comprehensive, shows the topic of research and methodology	92%
Introduction	- Does the introduction provide sufficient background information for readers not in the immediate field to understand the research topic?	93%
	- Provides a comprehensive overview of the research topic	94%
Research Objectives	- Clarity of objectives and the contribution of study in addressing community issues and the applicability of its results	92%
Research Questions	- Research questions are clear, specific, understandable and answerable.	93%
Research Hypotheses	- The hypothesis covers all aspects of the study and is related to the research problem.	93%

	- The hypothesis explains the study variables and the relationship between the variables.	94%
Research Significance	- Does the study provide benefit to the field of knowledge, the research community, and researchers?	95%
Research Limitations	The time and spatial boundaries are precisely defined in the research and are consistent with the objectives and procedures of the study.	93%
Literature review	- Benefit from the experiences and expertise of previous researchers, and employ the results of previous studies and benefit from them in the current study.	92%
Theoretical framework	- Providing comprehensive and additional information on the subject of the research, the comprehensiveness of the literary survey of the subject of the study.	91%
Methodology	- Use the appropriate approach for the research topic, clarity of the study's boundaries and the methodology followed	91%
Research approach	Use the appropriate approach for the research topic	92%
The population and sample	- The study community is appropriate for the research topic and problem	94%
	- The study sample accurately represents the research community	93%
Study tool	- The tool used in conducting the research is compatible	94%
	- The study tools are appropriate, reliable and significant	95%
Statistical methods and	- Clarity of data analysis methods and statistical analysis tools used and their suitability to the	94%

Academic Journal of Research and Scientific Publishing

processing	research topic and data.	
Results	- Presenting the results clearly and analyzing them appropriately	91%
	- The importance of the research results, their depth and their contribution to the dissemination of knowledge	93%
	- The research results are linked to the importance and objectives of the research	92%
	- Verifying the results and hypotheses through data collection and analysis	95%
Conclusions	- The Conclusion summarizes main research points, Brief, useful, and consistent with the subject and results of the research.	91%
Recommendation	- Statement of compatibility of research recommendations with the research topic	93%
	- It constitutes a beginning for researchers in enriching the scientific community	94%
Overall	- The research contains new and important information sufficient to justify publication	91%
	- Writing in a scientific language that is sober	92%
References	- References are modern and showing a great deal of variety. Moreover, related to the research subject.	91%
	- The researcher's commitment to references style provide in ajrsp journal.	100%
proofreading check	- Linguistic errors in research	0%
	- The occurrence of spelling errors in research	0%
plagiarism check	- Plagiarism check percentage.	Within the permissible limit
Degree of Research: 93% Note: Research papers with a degree of less than 70% will be rejected.		

Academic Journal of Research and Scientific Publishing

Overall Recommendation (tick one of the following levels):

☒	Accepted, no revision needed
☐	Accepted, minor revisions needed
☐	Return for major revision and resubmission
☐	Reject

Based on the opinion of the AJRSP editorial member, the research is accepted to publish in the journal in Volume 6 / Issue 67, which will be published on 05-11-2024.
