Project Risk Management

Instructions:

Instructor's Name: Eng. Mosaab M. Hamed

حتى الآن من المفترض أن تكون أصبحت قادراً على التعرف والتمييز بين أنواع المخاطر المختلفة وكيفية التعامل معها. كما يمكنك الآن رؤية كيف يتم هذا الأمر في الشركات الكبيرة والمرموقة.

في هذا الواجب: قم باختيار واحدة من الشركات التالية:

أرامكو السعودية

البنك الأهلي التجاري

شركة الاتصالات السعودية

قم باختيار واحدة من الشركات الثلاث المذكورة أعلاه ثم ابحث عن أي 4 مخاطر تواجهها هذه الشركة .

لكل خطر من هذه المخاطر قم بالاجابة عن الأسئلة التالية:

1. لماذا اعتبرته خطراً؟
2. ماهو نوع هذا الخطر؟
3. ماهي احتمالية هذا الخطر؟ وفي حالة وقوعه مامدى قوة وتأثير هذا الخطر؟
4. ماهي السياسة أو الاستراتيجية التي تتبعها هذه الشركة للتعامل مع هذا الخطر وادارته؟

** يمكنك الاجابة باللغة العربية أو الانجليزية على ألا تتجاوز اجابتك صفحتين من النوع A4

** يتم تسليم جميع الاجابات في ملف بصيغة pdf.

** حجم الخط 12.

** نوع الخط Arial.

** المسافة بين الأسطر (line spacing) 1.5

أمنياتي بالتوفيق.

Throughout this course you have learned about the different types of risk and how businesses manage them. Now you will be able to see how it is done in a well-known company.

Your assignment is to choose one of the following companies:

Saudi Aramco

The National Commercial Bank

Saudi Telecom Company

Do some research on any of the aforementioned companies and identify four risks they are facing.

For each risk please answer the following:

1. Why is this a risk?
2. What type of risk is it?
3. What is the likelihood of the risk? How great is the impact?
4. What strategy or policy does the company use to manage the risk?

** Your answers could either be in Arabic or English.

** You should submit your assignment in a pdf formatted file.

** Font size should be 12.

** Font type is Arial.

** Line spacing is 1.5.

All the best.

NISK NAME	Risks related to chemicals and plastics regulations	. Risks related to managing a public company
Why is this a risk	Increased concerns regarding the safe use of chemicals and plastics and their potential impact on the environment have resulted in more restrictive regulations and could lead to new regulations	Saudi Aramco's management team has limited experience managing a public company.
What type of risk is it	Compliance Risk	Opportunity risk
What is the likelihood of the risk? How great is the impact	The likelihood is medium. Concerns regarding chemicals and plastics, including their safe use and potential impact on the environment, reflect a growing trend in societal demands for increasing levels of product safety, environmental protection and recycling.	The likelihood is medium. Saudi Aramco's management team has limited experience managing a public company, interacting with investors
What strategy or policy does the company use to manage the risk	Aramco has established a large department whose responsibilities are to ensure compliance with regulations and requirements	Aramco is keen not to engage in such contributions frequently and upon entering it, contracts with offices specialized in managing such companies, and Aramco plays a follow-up role.

NISK NAME	Risks related to crude oil supply and demand	Risks related to acquisitions
Why is this a risk	Saudi Aramco's results of operations and cash flow are significantly impacted by international crude oil supply and demand and the price at which it sells crude oil	Saudi Aramco may not realize some or all of the expected benefits of recent or future acquisitions, including with respect to SABIC.
What type of risk is it	Hazard risk	Opportunity risk
What is the likelihood of the risk? How great is the impact	The likelihood is high, according to impact of the rate by many reasons such as: global economic and political conditions and geopolitical events, including any that impact international trade	The likelihood is medium. Any such acquisition entails various risks, including that Saudi Aramco may not be able to accurately assess the value, strengths and weaknesses of the acquisition
What strategy or policy does the company use to manage the risk	Aramco is trying to maintain prices in the range and also to maintain supplies to the global market through the OPEC organization and to oblige countries to certain quotas so that supply is not more than demand, which may affect production	Aramco is keen to avoid any such risk by carefully studying and also relying on consultants specialized in such acquisitions to avoid any risk that may be caused to Aramco.
