

# Literary Criticism-2

## RSC813 - Task 10

Prepared by  
Abdulaziz Alarfaj

Part  
01

## Research Title

**Assignment :** Critique of Research Paper in Terms of  
References

**Article Chosen :**

“Cybersecurity Leadership: Shaping the Human Factors for a Secure Future”

## Recency of References

### تاريخ النشر

The majority of the references cited in the paper are relatively recent, spanning from **2015 to 2023**, which reflects an awareness of the evolving nature of **cybersecurity leadership** and human factors. This ensures that the discussion is grounded in up-to-date thinking and aligns with current global developments in cybersecurity culture, awareness, and leadership.

### Variety of Sources

تنوع المصادر:

The paper demonstrates **diversity in sources**, combining academic journals, industry reports (e.g., ISACA, ENISA), and government publications. There is a balanced use of **classic foundational works** (e.g., Schein's organizational culture theories) alongside **contemporary cybersecurity governance literature**. This mixture provides a comprehensive understanding of the topic across time.

### Relevance of References

صلة المراجع بالموضوع

All referenced materials are **highly relevant** to the topic of **cybersecurity leadership** and its human dimensions. The citations support concepts like leadership models, organizational behavior, and cyber awareness programs. Each reference serves a direct purpose in justifying either the problem, the theoretical foundation, or the proposed framework.

## Appropriate Use of Citations

استخدام المراجع لدعم الحجج

Citations are integrated **logically and coherently** throughout the introduction, literature review, and discussion. The references are used not only to support arguments but also to frame the theoretical background and highlight existing research gaps. No excessive or irrelevant citations are included
