Well, function of management we need to do it as standard steps. Planing- organizing leading – controlling.

As they said a job well planed is half done. Function of management can be internal or external with good organizing and leading. On the other hand function of project is internal and action taken faster, make product better or bigger as the customer need. Marketing for more customers, Human Resources need to hire as company need, connected to finance to decide the quote for the company.
