(Discuss the retaliation ship between Functions of Management and function of project)

(المشروع ووظائف الادارة ووظائف بين العلاقة ناقش)

the difference between functions of management and function of project is that the function of management is to use the full man power and money the best use and create better environment to maximize the full of it's power to achieve the desired goals .Moreover, management should considerate the fact of dealing with human factor to achieve the best out of them through four factors .first is planning which is action that precedes execution to take dictions what should be done in future to achieve the organization goals in specific period of time .Secondly ,organized which is the circle which collects individuals efforts to reach the organization goals .thirdly, direction and supervision which supervise and stimulate the managers to ensure the integrity of the plans drawn .finally, censorship it is an operation the organization do to make sure that everything is going as planed .Functions of project which is A group of activities related to the nature of the institution's activity, which varies according to the nature of the activity for example in industrial projects jobs has production ,stores, purchases and sales .However, in business project has purchases ,storage and sales.
