THE IMPACT OF LEADERSHIP SKILLS ON PROJECT SUCCESS IN **YOUR ORGANIZATION**: A CASE OF YOUR OWN.

Different leadership styles are the key factor in the success of any project. Project Leaders are responsible and accountable for the success/failure of the project. There are numerous responsibilities that are assigned to a Project Leader during the leadership journey.

YOUR MISSION:

Your research/project must provide an overview of information and knowledge in a corporate environment with an underlying theme of **defining leadership styles within applying the hard and soft skills** for that style needed by the leader to ensure successful project delivery in your organization. (You are required to demonstrate your understanding of the relevant body of works to real-life business research).

Choose one only of the following project leadership skills using the tools that we learned during the project leadership course; starting from identifying and assess the case till executing the project.

- Prioritization (Using tools for Estimation – Scheduling – Tracking – prioritizing stakeholders).
- Team management (Using Team structures – Team development stages – Team needs).
- Embracing Accountability (Using RASCI)
- Conflict resolution (Using the Thomas-Kilmann conflict mode instrument).
- Motivation (Using one theory of motivation – Types of motivators).
- Communication in the project.
- Influencing (Using different sources of LEADER POWER).

What you have to do:

Your project task requires the preparation of a full project proposal that should contain the following components:

- **Introduction:** A detailed statement of the problem, research aim, and objectives that you would like to investigate and discuss. **(2 points)**

- **Literature Review and Conceptual framework:** An analysis of the literature relevant to the research topic that will give you the conceptual basis for conducting your research from the previous studies. **(2 points)**
- **Methodology:** Based on the conceptual framework, research aim(s), and objectives, you need to provide a detailed description of the data collection tools, data sources. **(2 points)**
- **Results and Discussion:** Description about the main findings of a research, outline your thoughts to defend your research and to emphasize the significance of it. **(4 points)**
- **References:** Lists all the resources you've used in your project, and your refereed journal articles as well. **(2 points)**
- **Appendices (If it is available in your study):** Any supplementary material you need to add. (Optional)

[Write the names of the chapters/sections of your research/ project and briefly discuss what you will write in those chapters/sections] .

Best of luck...

تأثير مهارات القيادة على نجاح المشروع في مؤسستك: حالة عملية خاصة بالطالب.

أساليب القيادة المختلفة هي العامل الرئيسي في نجاح أي مشروع. قادة المشروع مسؤولون عن نجاح / فشل المشروع. وهناك العديد من المسؤوليات الموكلة لقائد المشروع خلال رحلة القيادة.

مهمتك:

يجب أن يوفر بحثك لمحة عامة عن المعلومات والمعرفة في بيئة المؤسسة الخاصة بك وهي موضع الدراسة مع تحديد أنماط القيادة في إطار تطبيق المهارات الخاصة بالقائد والمناسبة لهذا النمط الذي يحتاجه القائد لضمان تسليم مشروع ناجح في المؤسسة. (أنت مطالب بإثبات فهمك لما تم دراسته وتطبيقه بالأبحاث الواقعية في مؤسستك).

اختر واحدة فقط من مهارات قيادة المشروع التالية باستخدام الأدوات التي تعلمناها خلال مقرر القيادة في المشاريع.

- Prioritization (Estimation – Scheduling – Tracking – prioritizing stakeholders).
- Team management (Team structures – Team development stages – Team needs).
- Embracing Accountability (RASCI)
- Conflict resolution (The Thomas-Kilmann conflict mode instrument).
- Motivation (Using one theory of motivation – Types of motivators).
- Communication in the project.
- Influencing (Using different source of power).

ما عليك القيام به:

تتطلب مهمة مشروعك إعداد مقترح مشروع كامل يجب أن يحتوي على المكونات التالية:

- مقدمة: بيان تفصيلي للمشكلة محل الدراسة، تحديد هدف البحث والأهداف التي ترغب في التحقيق فيها ومناقشتها من خلاله.
- دراسات علمية سابقة: تحليل الأدبيات والدراسات السابقة ذات الصلة بموضوع البحث والتي ستساعدك في مجال الدراسة لإجراء هذا البحث.
- المنهجية وطريقة البحث: بناءً على أهداف البحث، تحتاج إلى تقديم وصف تفصيلي لأساليب وأدوات جمع البيانات ومصادر البيانات والأساليب / الأدوات التي ستستخدمها.
- النتائج ووصف المناقشة حول النتائج الرئيسية للبحث: شرح مفصل للمشكلة محل الدراسة.
- المراجع: تسرد جميع المصادر التي استخدمتها في مشروعك، ومنها مقالات المجلات المحكمة أو المواقع المستخدمة للبحث.
- الملحقات (إذا كانت متوفرة في دراستك): أي مواد تكميلية تحتاج إلى إضافتها. (اختياري).

{اكتب أسماء فصول وأقسام (البحث / المشروع) الخاص بك، وناقش بإيجاز ما ستكتبه في كل قسم}.

كل التوفيق لكم جميعاً.....

Introduction

The objective of this paper is to explore the leadership role of project manager which has largely been ignored in literature that is noted through an observation that research on project manager's leadership is still limited. It is becoming difficult to differentiate between the roles of project manager or leader in context of leadership and management as well as project management. Therefore, it becomes important to understand the differences between project leadership and project management, to determine the effect of project leadership performance on success or failure of project. The project leadership needs attention in project management literature, even though calls have been made for more research on project leadership. It is momentous to determine the effectiveness of project success by recognizing the distinction between the leadership and management roles of project managers.

Literature Review and Conceptual framework

Effective leadership and employee job satisfaction are considering to be the fundamental factors for organizational success. A capable leader provides guidance for the organization and lead followers toward achieving desired goals. Therefore, organizations need to have efficient leaders to lead and motivate their employees in their daily operation so that they can achieve the organizational goals. Theorists have suggested a number of leadership roles are essential for innovation in R&D context. The roles including idea generating, entrepreneur or championing, project leading, gate keeping and sponsoring or coaching. Furthermore, leadership development for leaders is necessary for R&D performance, especially when this study is aim for the R&D context. Leadership has been defined in terms of traits, behaviors, influence, interaction patterns (styles), role relationships, and occupational of an administrative position. For the purpose of this study, the researchers will focus on leadership styles namely transformational and transactional leadership styles due to their supposed impact on the performance R&D teams

Methodology

This paper focus on an overall methodology for the conceptual research framework of the impact of leadership styles on heterogeneous R&D team performance. By conducting a background literature review and identifying the problem statements, a series of data collection will create a source of database collection for the impact of leadership

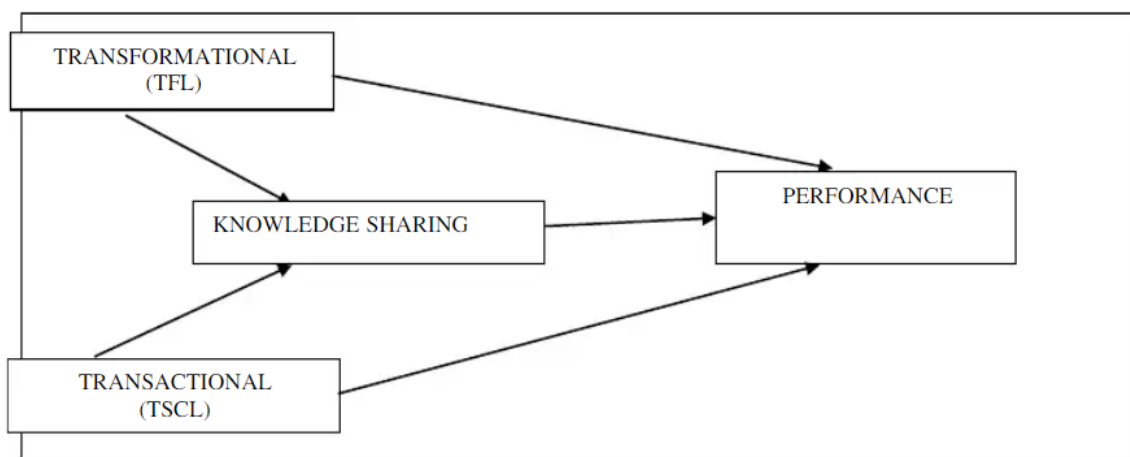

Figure 1: Conceptual Research Framework: The Causal Relationship between leadership style, knowledge sharing and heterogeneous R&D team performance.

Results and Discussion

This study and its findings are considered important to provide insight into the various leadership style needed to successfully perform in the R&D agenda in Malaysia. In terms of theoretical significance, this study proposes to fill the gap in the body knowledge in the practices of leadership style in Malaysian R&D agenda by addressing these issues. The present study intends to investigate the role of leadership agenda associated with heterogeneous team performance. From a practical perspective, the findings of this study will be useful to top management and practitioners to design their leadership style within the strategic condition at the macro or micro organizational level in order to improve team performance especially in heterogeneous teams. In addition from a policy perspective,

this study will be useful in order to provide better training for leadership as a whole.
