

- The problem statement must be well defined and clear. For example, focus on the existing solutions proposed to address the problem related to the existing AI-based solutions
 - Research objectives must be concise. It's good to start each objectives with "To" followed by appropriate verb (To propose ...).
- Furthermore, ensure that each research objective mapped with problem challenges listed in the problem statement section

Research Methodology in Computer Science (AI800)

Assignment 2 Rubric

Weighting: 30%

19

Criteria	Marks	Description
Problem Statement (14 marks):		
Clarity	4 2	The problem statement is clear and concise, and the reader can easily understand the research problem. It should be free from ambiguity.
Relevance	5 2	The problem statement addresses a significant research issue or gap in the field, and its relevance to the broader context is evident.
Specificity	5 2	The problem statement is specific and well-defined, focusing on a single, clear research question or issue.
Research Objectives (13 marks)		
Alignment	4 3	The research objectives are directly related to the problem statement and are designed to address the identified research problem.
Clarity	4 4	Each research objective is clearly stated and is easily understood. The objectives should be free from ambiguity.
Measurability	5 4	The research objectives are framed in a way that allows for measurement and evaluation, and it is evident how they will contribute to achieving the research goal.
Other criteria (3%)		
Language, Grammar, and typo	3 2	The text follows proper grammatical rules, including subject-verb agreement, tenses, and sentence structure. Furthermore, text is free from spelling errors, typos, and other typographical mistakes.
