

The problem statement must be presented in paragraph form, focusing on the deficiencies of existing solutions. It would be beneficial to include a summary of the research problem at the end in bullet points.

Create a single Research Objective section to describe research objectives in point form (e.g., To design, To propose...) aimed at addressing the challenges raised in the research problem. The current research objectives are acceptable but can be further enhanced.

Currently, there are two research problems and two research objectives. Focus on one of them.

Research Methodology in Computer Science (AI800)

Assignment 2 Rubric

Weighting: 30% 21

Criteria	Marks	Description
Problem Statement (14 marks):		
Clarity	4 3	The problem statement is clear and concise, and the reader can easily understand the research problem. It should be free from ambiguity.
Relevance	5 4	The problem statement addresses a significant research issue or gap in the field, and its relevance to the broader context is evident.
Specificity	5 2	The problem statement is specific and well-defined, focusing on a single, clear research question or issue.
Research Objectives (13 marks)		
Alignment	4 3	The research objectives are directly related to the problem statement and are designed to address the identified research problem.
Clarity	4 3	Each research objective is clearly stated and is easily understood. The objectives should be free from ambiguity.
Measurability	5 4	The research objectives are framed in a way that allows for measurement and evaluation, and it is evident how they will contribute to achieving the research goal.
Other criteria (3%)		
Language, Grammar, and typo	3 2	The text follows proper grammatical rules, including subject-verb agreement, tenses, and sentence structure. Furthermore, text is free from spelling errors, typos, and other typographical mistakes.
