## PROJECT LEADERSHIP

---

Mohammed bin Salman bin Abdulaziz Al Saud the Crown Prince of Saudi Arabia , I selected him as a leader because he has Leadership styles , understanding of who is being led.

His style is **Affiliative Leadership** and he focuses to build a sense of community and trust , positively impacts persons , a morale boost person , he provides guidance during crisis , he can resolves conflicts more efficiently and creates effective teams.

I selected Affiliative Leadership for him because during TV interview he has a positive vision for the future until 2030 and he has emphasized connection and harmony.

My style is mixing between affiliative and coaching leadership style because I am work as project manager and connect the goals and productivity of the team/project with individuals.
