Project Risk Management

Instructions:

Instructor's Name: Eng. Mosaab M. Hamed

حتى الآن من المفترض أن تكون أصبحت قادراً على التعرف والتمييز بين أنواع المخاطر المختلفة وكيفية التعامل معها. كما يمكنك الآن رؤية كيف يتم هذا الأمر في الشركات الكبيرة والمرموقة.

في هذا الواجب: قم باختيار واحدة من الشركات التالية:

أرامكو السعودية

البنك الأهلي التجاري

شركة الاتصالات السعودية

قم باختيار واحدة من الشركات الثلاث المذكورة أعلاه ثم ابحث عن أي 4 مخاطر تواجهها هذه الشركة .

لكل خطر من هذه المخاطر قم بالاجابة عن الأسئلة التالية:

1. لماذا اعتبرته خطراً؟
2. ماهو نوع هذا الخطر؟
3. ماهي احتمالية هذا الخطر؟ وفي حالة وقوعه مامدى قوة وتأثير هذا الخطر؟
4. ماهي السياسة أو الاستراتيجية التي تتبعها هذه الشركة للتعامل مع هذا الخطر وإدارته؟

** يمكنك الاجابة باللغة العربية أو الانجليزية على ألا تتجاوز اجابتك صفحتين من النوع A4

** يتم تسليم جميع الاجابات في ملف بصيغة pdf.

** حجم الخط 12.

** نوع الخط Arial.

** المسافة بين الأسطر (line spacing) 1.5

أمنياتي بالتوفيق.

Throughout this course you have learned about the different types of risk and how businesses manage them. Now you will be able to see how it is done in a well-known company.

Your assignment is to choose one of the following companies:

Saudi Aramco

The National Commercial Bank

Saudi Telecom Company

Do some research on any of the aforementioned companies and identify four risks they are facing.

For each risk please answer the following:

1. Why is this a risk?
2. What type of risk is it?
3. What is the likelihood of the risk? How great is the impact?
4. What strategy or policy does the company use to manage the risk?

** Your answers could either be in Arabic or English.

** You should submit your assignment in a pdf formatted file.

** Font size should be 12.

** Font type is Arial.

** Line spacing is 1.5.

All the best.

Aramco

Question Risk	Why is this a risk?	What type of risk?	What is the likelihood & impact?	What strategy/ policy does the company use to manage the risk?
Risk #1	Investing in new type of energy source or searching new area for oil. This investment is not guaranteed to be succeed	Opportunity Risk	Medium. Loss of financial and time resources	Use latest techniques and devices to know if this investment will be successful or not
Risk #2	Working in a new project and use specific tools and resources for extracting oil and set a budget and time limit. There's a high probability of missing deadline and going above budget	Control Risk	High. This type of risks clearly happens with high likelihood. It's related to uncertainty to meet deadlines or staying on budget. Meaning, there will be much of waste on time schedule and energy and financial resources	Stay under control and follow each detail in the project plan. Try to avoid hazard risks or any risk that could cost more on financial resources or cause delay on schedule
Risk #3	While working in a specific long-term project, there's a chance the	Compliance Risk	Medium. Fines and more taxes could be imposed due to regulations and rules	Stay updated of governmental regulations and rules. Try to know

Risk #3	governmental regulations, rules and legislation to completely or partly change. That means what's allowed today may not be tomorrow. This could cost the company a big loss of financial resources or even terminate the project	Compliance Risk	change. Which means the project will for sure go above budget or will be terminated as some or all of its activities are now prohibited	the changes with enough time ahead to allow project plans to change and adapt to the new rules. Sign long-term contracts and agreements to maintain the current project plan
Risk #4	The company was working on a project but uses a new tool or technique without providing adequate and appropriate training due to lack of knowledge and qualified trainers. This could cause a hazard human or/and financial resources. That is hard to recover of	Hazard Risk	Low. This risk is rarely to happen as most the companies provide best training to employees and wouldn't risk its reputation. This kind of risk is hard or impossible to recover from. Using tools without enough knowledge could cause catastrophic loss of humans and used tool	Avoid using new tools and techniques without enough training. If using those is a must it should be under a supervision of a well-trained qualified manager or at least under eyes of a manger can act and make decisions quickly if there's a possibility of a coming hazard risk
