## (Discuss the relationship between Functions of Management and function of project)

### (ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

The functions of the project are :

1. Product
2. Marketing
3. Human Resources
4. Finance

The functions of management are:

1. Planning
2. Controlling
3. Organizing
4. Leading

The relationship between them:

In my point of view, we use the functions of management to manage the functions of project. For example, a project manager needs to set a plan to have an effective marketing for his project, so he needs to use planning function from the functions of management.
