Instructor's Name: Dr. Ibrahim read

1-Walt Disney \$1.1 Billion

Walt Disney has lost \$ 1.1 Billions because of COVID-19 the reason was is their type of work which is shooting movies in which requiring manpower to gather for shooting and they couldn't allow the stars to shoot in a movie with a face mask since the viewers will not be interested in a movie the whole crew wearing a Face mask and Disney couldn't take the risk to shoot a movie with a high cost and low views expectation

2-Chevron \$8.7 Billions

Chevron TBT recorded \$ 8.3 billion in the second quarter as the coronavirus schedule to "dramatically reduce demand". Amid a historically low price of oil, the average price per barrel of oil and natural gas liquids manufactured by 60% year over year.

3-Human 2,519,255

I believe the human being is also considered as an economic. Imagine that more than 2,519,255 people has been dead according to the international record a grandmother, grandfather, mothers, fathers, sisters, brothers, teenage, children. Imagine incase they were alive what kind of idea they would've be sharing. How many of them was working on a project? I would be able to imagine how many projects is dead now. The root cause was of careless people who is not implementing the COIVD-19 precaution and some not being committed to isolation period
