Project Risk Management

Instructions:

Instructor's Name: Eng. Mosaab M. Hamed

حتى الآن من المفترض أن تكون أصبحت قادراً على التعرف والتمييز بين أنواع المخاطر المختلفة وكيفية التعامل معها. كما يمكنك الآن رؤية كيف يتم هذا الأمر في الشركات الكبيرة والمرموقة.

في هذا الواجب: قم باختيار واحدة من الشركات التالية:

أرامكو السعودية

البنك الأهلي التجاري

شركة الاتصالات السعودية

قم باختيار واحدة من الشركات الثلاث المذكورة أعلاه ثم ابحث عن أي 4 مخاطر تواجهها هذه الشركة .

لكل خطر من هذه المخاطر قم بالاجابة عن الأسئلة التالية:

1. لماذا اعتبرته خطراً؟
2. ماهو نوع هذا الخطر؟
3. ماهي احتمالية هذا الخطر؟ وفي حالة وقوعه مامدى قوة وتأثير هذا الخطر؟
4. ماهي السياسة أو الاستراتيجية التي تتبعها هذه الشركة للتعامل مع هذا الخطر وادارته؟

** يمكنك الإجابة باللغة العربية أو الانجليزية على ألا تتجاوز اجابتك صفحتين من النوع A4

** يتم تسليم جميع الاجابات في ملف بصيغة pdf.

** حجم الخط 12.

** نوع الخط Arial.

** المسافة بين الأسطر (line spacing) 1.5

أمنياتي بالتوفيق.

Throughout this course you have learned about the different types of risk and how businesses manage them. Now you will be able to see how it is done in a well-known company.

Your assignment is to choose one of the following companies:

Saudi Aramco

The National Commercial Bank

Saudi Telecom Company

Do some research on any of the aforementioned companies and identify four risks they are facing.

For each risk please answer the following:

1. Why is this a risk?
2. What type of risk is it?
3. What is the likelihood of the risk? How great is the impact?
4. What strategy or policy does the company use to manage the risk?

** Your answers could either be in Arabic or English.

** You should submit your assignment in a pdf formatted file.

** Font size should be 12.

** Font type is Arial.

** Line spacing is 1.5.

All the best.

Saudi Aramco

1- Oil & Gas Price Risk

- a. This is a risk because it is impact into the benefit and investment strategy of the company.
- b. Opportunities Risk.
- c. The likelihood of this risk is low and the impact of this risk considered as long-term risk because it is associated to the strategic decision.
- d. The company will seek to **embrace** this risk in order to ensure that the global demand for oil&gas is increasing by reduce the amount supply of oil&gas and this step will increase or at least maintain the price of oil&gas.

2- Oil Spills Risk

- a. This is a risk because it is impact into the environment (sea/land life, plants and animals).
- b. Hazard Risk.
- c. The likelihood of this risk is high and the impact of this risk considered as short-term risk because it is associated with operational decision.
- d. The company will seek to **mitigate** this risk in order to ensure that will apply an oil containment plan to prevent spill of oil by using a new technology and safety programs.

3- Construct a New Building & Facilities Project Risk

- a. This is a risk because it is impact into the project programs, objectives, time and cost.
- b. Control/Uncertainties Risk.
- c. The likelihood of this risk is low and the impact of this risk considered as medium-term risk because it is associated with the project.
- d. The company will seek to **manage** this risk in order to ensure that the outcome from this project/business activities falls within the desired range to reduce the variance between anticipated outcomes and actual results then will manage the impact into the project's objectives, time and cost.

4- Terrorism and Attacks on Oil & Gas Facilities Risk

- a. This is a risk because it is impact into the health and safety programs.
- b. Hazard Risk.
- c. The likelihood of this risk is high and the impact of this risk consider as short-term risk because it is associated with operational decision.
- d. The company will seek to **mitigate** this risk in order to ensure that the pipeline system and terminal facilities transport the oil&gas through the kingdom with safe and high secure system by military and army force support and these important steps will prevent and avoid any damage to the company's property.
