Hello mustafa

Hope you are doing well.

My name is (shuroog) and I'm 22 years old. I was born in Saudi Arabia. Last year I was working in a shop inside a mall and it was a nice experience.

Everyday, I have been walking and doing some exercises.

On the other hand, I really want to be a business woman in the future, I'm working hard right now to get what I need.

I just started my first semester in the everyone's smart university. I have been studying here since 2 months ago, and I'm really enjoying it.

Also, at the same time, I'm doing an online course on one of the best websites here in my country and it talks about safety management.

I really enjoy studying in the weekend. Otherwise I feel that I really want to get an advantage to start a new project. If there is a chance that you could help me I will really appreciate that.

Thanks a lot for reading my email,

Hope to hear from you soon.

Shuroog .
