Each proposal will be evaluated according to the following evaluation criteria:

	Accepted	Refused	Developed	Comment
1- Research Cover	√			
2- Research Title			√	It is preferred to include in your title the study period to make the title more informative.
3- Introduction			√	No need to write an abstract in the proposal because the abstract is a summary of all what is done in the final version of your research including a brief about the results.
4- Study Problem			√	You have to re-number all the sections of your proposal to be more informative and accurate.
5- Importance of The Study	√			
6- Objectives of The Study	√			
7- Study Questions				missing
8- Theoretical Framework			√	It is preferred to draw a diagram showing the independent and dependent of the study.
9- Theoretical Premises of Study			√	You have to classify the literature review into theoretical background and previous studies to determine the research gap of your research which confirms the usefulness of your research from professional and academic perspectives. You have also to check the in-text citation in the literature section.
10- Research Methodology	√			
11- Study Tools			√	In the data analysis technique section, you didn't mention how you will evaluate the reliability and validity of the questionnaire that you intend to use.
12- Fields of Study	√
