

Remove the first paragraph from the problem statement: "The main goal of this research is to explore how AI can be used to detect and handle fake news in practical, real-world environments, while focusing on challenges like language diversity, explainability, and user trust." This text is also repeated at the end of the problem statement, so remove it there as well.Limit the number of research objectives to four, and ensure that the objectives are mapped to the identified problem challenges.

Research Methodology in Computer Science (AI800)

Assignment 2 Rubric

29/30

Weighting: 30%

Criteria	Marks	Description
Problem Statement (14 marks):		
Clarity	4	The problem statement is clear and concise, and the reader can easily understand the research problem. It should be free from ambiguity. 4
Relevance	5	The problem statement addresses a significant research issue or gap in the field, and its relevance to the broader context is evident. 5
Specificity	5	The problem statement is specific and well-defined, focusing on a single, clear research question or issue. 5
Research Objectives (13 marks)		
Alignment	4	The research objectives are directly related to the problem statement and are designed to address the identified research problem. 4
Clarity	4	Each research objective is clearly stated and is easily understood. The objectives should be free from ambiguity. 4
Measurability	5	The research objectives are framed in a way that allows for measurement and evaluation, and it is evident how they will contribute to achieving the research goal. 4
Other criteria (3%)		
Language, Grammar, and typo	3	The text follows proper grammatical rules, including subject-verb agreement, tenses, and sentence structure. Furthermore, text is free from spelling errors, typos, and other typographical mistakes. 3
