(MGM111)

Principle of management

Instructions:

يجب حل الواجب و تعبئته في هذا النموذج وتحويله الي PDF ورفعہ مره اخري للتقيم.
الحل باللغة العربية او الانجليزية.

Instructor's Name: **DR. MAGDY ALHAJ**

(Discuss the relationship between Functions of Management and function of project)

(ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

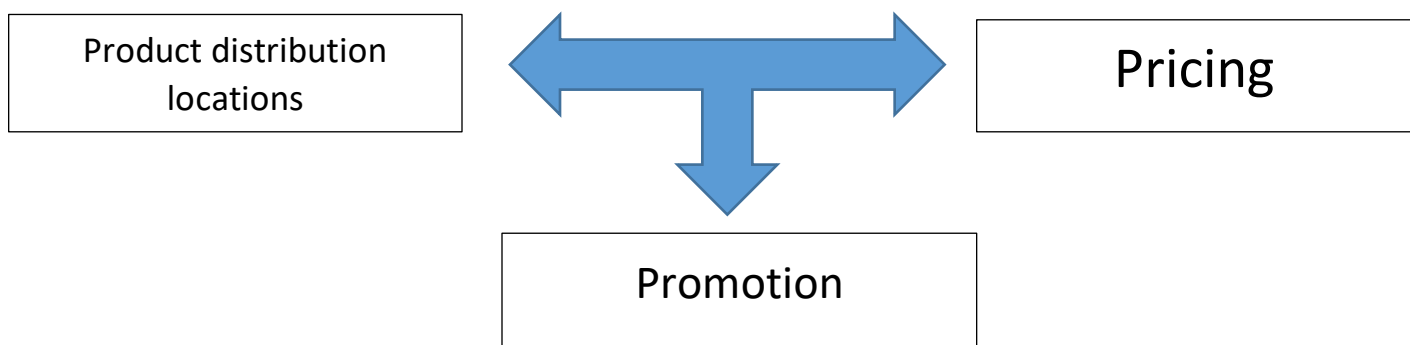

The relationship between management functions and project functions is a parallel relationship that is complete with each other. You cannot begin with a project without specifying administrative foundations, and that the project continues without employing the characteristics of the project functions. In the beginning, you must:

- 1. Goals are planned**
- 2. Establishing important relationships that allow individuals to work together to achieve goals**
- 3. Leading the work team and encouraging continuity**
- 4. Establish accurate measurement and control systems to assess the extent of the systems' success in achieving their goals**

Now, after determining the administrative functions, the functions of the project characteristics must be studied, and they are as follows:

1. The Financial Department will be dedicated to targeting and attracting funds and is responsible for accounts and salaries
2. Human resources work on contracts, appointments, processing salaries and promotions
3. Marketing is divided into three important departments that determine the company's profit head:

- 4- Products are produced according to quality standards after defining the project's functions.

In conclusion, for any project to continue, management functions and project functions must be established creatively and thoughtfully in cooperation with a team of experts to avoid problems until the future goals of the company are achieved.
