Also use simple present tense and the vocabularies that have been covered in the three units.

Dear colleague,

Hope you're doing well, My name is Mahfoudh Rebboud, I am just a new colleague with you and I think it's a nice chance to get to know each other, I am from Algeria single with 27 years old. In 2018, I had completed my master's degree in mechanical engineering, during my graduation period I had done my project and successfully completed a training course on gas turbine power plant.

In 2019, I've worked a part time as mechanical engineering teacher in the execution of the national military service. I am now without job, I am interested to work as a mechanical engineer steam and gas turbine, my goal is to get good opportunities to develop my skills.

My hobbies are Internet browsing & searching for helpful applications, watching news & discovery channel, listening old songs, art & design. I am patient, committed, honest and self-motivated. I am the biggest dreamer I have ever come across! I forgive easily and hate to keep grudges in my heart. My weakness is my soft nature that sometime harms me.

I am very happy to be a part at Everyone's Smart University, I will try my best to complete my Bachelor of Project Management and I wish you this too.

I look forward to meeting you to exchange our mutual expectations and work together.

Kind regards

Mahfoudh REBBOUD.
