

- The research title is not provided
- The problem statement is not clear . Rewrite the problem statement by focusing on a clear issue and highlight why existing research/solution are unable to address this issue.
- The problem statement must be presented in paragraph form. Summarizing the problem statement in bullet points at the end is recommended.
- Rewrite the research objectives to be in alignment with the research challenges outlined in the problem statement.

Research Methodology in Computer Science (AI800)

Assignment 2 Rubric

Weighting: 30%

16

Criteria	Marks	Description
Problem Statement (14 marks):		
Clarity	4 2	The problem statement is clear and concise, and the reader can easily understand the research problem. It should be free from ambiguity.
Relevance	5 3	The problem statement addresses a significant research issue or gap in the field, and its relevance to the broader context is evident.
Specificity	5 2	The problem statement is specific and well-defined, focusing on a single, clear research question or issue.
Research Objectives (13 marks)		
Alignment	4 2	The research objectives are directly related to the problem statement and are designed to address the identified research problem.
Clarity	4 2	Each research objective is clearly stated and is easily understood. The objectives should be free from ambiguity.
Measurability	5 3	The research objectives are framed in a way that allows for measurement and evaluation, and it is evident how they will contribute to achieving the research goal.
Other criteria (3%)		
Language, Grammar, and typo	3 2	The text follows proper grammatical rules, including subject-verb agreement, tenses, and sentence structure. Furthermore, text is free from spelling errors, typos, and other typographical mistakes.
