Principle of management

Instructions:

يجب حل الواجب و تعبئته في هذا النموذج وتحويله الي PDF ورفعته مره اخري للتقيم.
الحل باللغة العربية او الانجليزية.

Instructor's Name: **DR. MAGDY ALHAJ**

(Discuss the relationship between Functions of Management and function of project)

(ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

The functions of management are the human and financial possibilities that exist in the institutions, which are better used to create a suitable atmosphere in order to operate all the resources available in the institutions to the powerful possible capacity, which includes (planning, organizing, leading, controlling) in every function of the project for its success, such as production, marketing, human and financial resources.

As for the functions of the project, they are the activities related to the nature of the activity of the institution, which make every effort to achieve high levels of quality and success, including procurement, sales, production and stores.

The relationship between them is an interdependent relationship, whenever the administrative capabilities are available in the institution, the more the institution guarantees the success of the project
