PROJECT LEADERSHIP

Instructor's Name:

Dr. Sara Adel

The Leader

Every leader important to have a creative vision, motivation, managing, and coaching. However, when I see the importance become in my mind the leader of "Riyadh Season ". He is changing a lot of concepts and cultures. Turki Alshikh is one of the leaders effective in 2019 in Saudi Arabia.

In my opinion, He is a transformational and visionary leadership style because he defines clear goals also a clear and creative vision. Turki Alshikh makes change happen in my city the capital of Saudi Arabia. If anyone told me that Riyadh will be like this, I will not believe them.

On the other hand, we saw many situations that showed us how wonderful and self-made a leader from these positions. For example, he always went to the project with them and work in the morning and evening as a coach to finish it on time. Also, when he fell ill, and his doctor asked him to travel and undergo the operation as soon as possible. However, he refused to travel until the season was completed.

Finally, Turki Alshikh his dream become true like what I try to do. I always try to be like his style among me, to make them effective in our life.
