(Discuss the relationship between Functions of Management and function of project)

(ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

The relationship between Functions of Management and function of project directly is that:

Management functions are: planning - organizing - directing - control - and leadership this is first. After that and as we know, all these management functions are applied in every function of the project for its success such as finance, human resources, production and marketing.

In addition, The management functions are those who manage the work with interest and integrity. As for the project functions, they make every effort to achieve the highest level of success.

Finally, we can say that it is a complementary relationship between them and also i think it is essentially for each project.
