(MGM111)

Principle of management

Instructions:

يجب حل الواجب و تعبئته في هذا النموذج وتحويله الي PDF ورفعته مره اخري للتقيم.
الحل باللغة العربية او الانجليزية.

Instructor's Name: **DR. MAGDY ALHAJ**

(Discuss the relationship between Functions of Management and function of project)

(ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

1: Management functions:

Management functions can be defined as achieving objectives and implementing them by using as much human and material resource as they can, taking into account cost reductions. To achieve these objectives, five management functions are required:

- Strategy: This function is about anticipating the future and determining how best to achieve the goal.
- Organization: Is defined as the combination of human and material resources by designing an infrastructure for tasks.
- Recruitment: Interested in choosing the right person at the right place in the organization.
- Direction: Instructs and motivates employees towards organizational goals.
- Supervisory: And it's the last job to make sure we get the goals

2: Project functions:

Project functions refer to activities related to organizational activity that differ from one organization to another.

Relationship:

The above Management functions apply to all Project functions for success , we cannot apply Project functions to Management functions.
