

Further improve the problem statement by highlighting the limitations of existing solutions proposed to tackle the research problem. Ensure each research objective begins with "To" followed by an action verb. Avoid using "wh" questions in the objectives, and confirm their alignment with the identified research challenges. Critically review each study in the literature review, clearly explain the research gap, and include a summary table to consolidate all reviewed studies. Provide a clear explanation of the data collection process in the research methodology section.

Research proposal rubric

37

Assessment Item	Weak	Fair	Good	Excellent	Score
	Score (0 - 2)	(3 - 5)	(6 - 8)	(9 - 10)	(0 - 10)
Identify relevant research methodology in planning, managing, and executing a research project (Section materials and method and research planning)	Demonstrate poor knowledge on the subject matter	Demonstrate relevant research methodology but fairly adequate	Relevant research methodology is shown to a satisfactory level	Relevant research methodology is shown effectively	7
Selecting and designing research methods (Research objectives, Literatures review, to relate literature review to research objectives)	Unclear research objectives and literatures review not much relate to study	Demonstrate fairly research objectives / literatures review	Demonstrate good research objectives / literatures review	Demonstrate excellent research objectives / literatures review relate to objectives	8
Identify skills of data collection and analysis (Materials and method)	Inappropriate techniques and tool used	Techniques / modern tool used require few modifications	Appropriate techniques and modern tool are used	Excellent techniques and modern tool are used	7
Advanced analytical and critical thinking skills (Problem statement, gaps analysis)	Inappropriate problem statement / missing gaps analysis relate to study	Problem statement / gaps analysis are explained in a broad manner	Good problem statement / gaps analysis	Excellent problem statement / gaps analysis	7
Prepare effective research proposal with Gantt chart, research milestone and citations (Overall research proposal, contents, formatting etc)	Poor report/ planning/ citations	Fair report/ planning/ citations	Good report/ planning/ citations	Excellent report/ planning/ citations	8
