3. Write a **four-paragraph essay** profiling your chosen leader.

 - Next, detect the traits and style of your leader, and why you chose that style for him/her?
 - Next, describe the leadership situation your chosen leader was in and so you chose for him that style?

Best of luck..

It's my pleasure to write about my Dean who's was my Dean when I was study in college of engineering. He was one of the effective leaders in the University. I choose him because his major is IT and how its lead the college of engineering with an effective way.

Let's talk about his traits and style of leading. He has inspired visions of the collage future. And he was motivating and inspiring people (students, faculty members). He built a lot of effective committees in the college that committees help the college to achieving college visions.

I can list some of his traits:

- Vision
- People and human nature
- challenging
- originating
- Directing
- Flexible
- influencing

we can tell that he has coaching leadership style.

I was worked a lot with him and I instead from him. He was always try to encourage us to do activity in the college with the full support from them.

When I was president of students council in my college I was like to follow the coaching style with my members that style help me a lot to get new ideas for the members to do it in the collage.

It's activity style in such as these activities.
