 - بعد ذلك، صف الموقف القيادي الذي أثر بك وجعلك تختار الحديث عن هذا القائد. وأن لهذا السبب انت اخترت له هذا النمط القيادي.

The Answer

I would like to introduce one of the best leaders that I have been working with in my life. His name is Mr. Hussain Sabban (My Father). Since my age was 9 years old, he started his leadership attitude without my awareness. When I grew up to be 20 years old we started a real life of manager & employ in his construction company and that was a big stress at the beginning, however, he has been creating me for that day. Mr. Hussain was leader of my family as a father & leader in company as a manager.

He was a good listener; supportive even when I make mistake, meditative, energetic, confident, excellent communicator, director, decision maker, long rang vision, honesty & realistic. My leader has a lot of leadership skills, however, in my opinion the most powerful skills of him are:

- 1- Decision maker.**
- 2- Conflict resolver.**

We had one project in health care building and it was add one new floor on the top of the building. The project was offered to our company and I was refusing because of the age of the building was old and it could make trouble for us. However, my leader was brave and loves to take challenges. He made meeting with the company team to make final decision as he usually do. According to him “sharing information between your team will make you succeed in making decisions”. We faced one big issue that the as built drawings were wrong and caused failure of building load distribution. On the other hand my leader always facing the facts and issues, never run away or spending his time to put his blames on who did the mistake. Solving the issue is the main target then after solving he can do the investigation and take his action regard it. We could complete the work without solving the since it was not our company issue. We showed them the issue and we solved it under their supervision to evaluate the issue by themselves.

I learnt a lot from my father and he was creating my personality to become a good leader with variety of leadership skills. I am patient, good listener, hopeful, always supporting my team, flexible, decision maker. After applying these skills in my work environment, I found respect, support, honesty, and love from my team which leads us to be always in above all other department in my company.
