

MAJID TALEB ALFLFEL.....

Chapters and their contents must be arranged in accordance with the Researchers' Guide to Writing a PhD Thesis, available on the Moodle page, as per the university's instructions.

البند	التعديل المطلوب
Research Questions	Consider adding questions that explore the long-term impacts of AI adoption on project sustainability. In the end of the introduction last paragraph add lines guiding the reader to the following sections components
Theoretical Framework	It would be beneficial to explicitly connect the chosen theories to the research questions and objectives. For the theoretical models that support the presented concepts, consider the following names: 1. Integrated AI Project Management Framework 2. AI-Driven Decision-Making Theory 3. Sustainable AI Adoption Model 4. Adaptive AI Utilization Theory 5. Collaborative AI Management Paradigm Split the literature review into 2 section one for theoretical part as I mention in the above line and empirical studies Excellent work in page 42, try to brief the result to the direction and significance as well the Study Summary & GAP Analysis
Research Methodology	The methodology is well-explained and appropriate for the research aims. Suggestions: Justify the choice of qualitative vs. quantitative methods in the context of the research objectives.

The sample size and criteria are mentioned.	Sample of the Research
Suggestions: Provide more detail on the selection process and demographic characteristics of the sample participants.	
Split the reference into two section one for Arabic and one for English	المراجع
عند إتمام التعديلات برجاء كتابتها بلون مختلف للمراجعة مجهود قيم تم بذله	

The title cannot be changed as it is included in the university's research plan.

Chapters and their contents must be arranged in accordance with the Researchers' Guide to Writing a PhD Thesis, available on the Moodle page, as per the university's instructions.

General Comments for Revisions:

1. **Introduction Title:**

- Replace the semicolon (;) with a colon (:) in the introduction title for proper punctuation.

2. **Shortcuts vs. Abbreviations:**

Ensure that all shortcuts (e.g., "info" for "information," "approx." for "approximately") are replaced with their full forms or standard abbreviations.

3. **Abbreviations in Tables:**

Add standard abbreviations in tables for conciseness (e.g., PMI = Post-Mortem Interval, SD = Standard Deviation, CI = Confidence Interval).

Ensure the first use in-text is spelled out, followed by the abbreviation in parentheses.

Example:

Table Header: "PMI (hrs)" instead of "Post-Mortem Interval (hours)"

First In-Text Mention: "Post-Mortem Interval (PMI) was calculated..."

4. **In-Text Citations for Theories in Theoretical Framework:**

- All theories mentioned in the theoretical framework should include proper in-text citations (author, year).

Example:

Before: "According to Social Learning Theory, behavior is influenced by observation."

After: "According to Social Learning Theory (Bandura, 1977), behavior is influenced by observation."
