(Discuss the relationship between Functions of Management and function of project)

(ناقش العلاقة بين وظائف الإدارة ووظائف المشروع)

Traditional management functions include planning, organizing, staffing and controlling through performance standards and monitoring.

Functions specific to projects start with identification / classification of a function and the establishment of specific steps to see a project through from start to finish.

With project management, a main function of management involves the tracking and reporting of teams to maintain a timeline and delivery milestones.
