

A more specific research title is required, as the current title is too broad in scope. For each reviewed study, clearly report the study’s objectives, methodology, and quantitative findings, where applicable. Avoid using the subjective first-person pronoun “I.” Use an objective academic style, preferably passive constructions where appropriate, and provide an in-text citation for each reviewed study.

Research Methodology in Computer Science (AI800)

Assignment 1 Rubric

17/20

Weighting: 20%

19/23

Criteria	Marks	Description
Research Title	2 1	The research title is clear, concise, and directly relevant to the topic (2 marks).
