Makkah, 24244, KSA

Warm greetings from the ASAR International Conference!!!

Saed Hamed Alobadi & Amnah Mohammed Muafa is kindly invited to present a research paper on his/her paper titled "**The Impact of Artificial Intelligence on Digital Transformation in the Healthcare Sector in Riyadh in the Light of Vision 2030**" at the **International Conference on Advanced Operations Management (ICAOM-24)** on **9th – 10th January 2024** in **Toronto, Canada**.

ASAR is glad to invite academicians, students, researchers, and industry experts to the renowned Conference **ICAOM-24**, which will be held in **Toronto, Canada** on the **29th – 9th – 10th January 2024** under the theme "**Advanced Operations Management**".

Through a variety of distinguished addresses, plenary sessions, workshops, symposiums, oral and poster presentations, virtual/video presentations, and webinars, **ICAOM-24** promotes broad logical discourse, both intra- and inter-disciplinary, among Universities, Colleges, Academicians, and Department personnel.

(Please note that the above-mentioned conference will be held via virtual medium if any unforeseen circumstances emerge, such as a pandemic or travel limitations; participants will be alerted in advance.)

Sincerely,

Dr. Mohammad Nasir
